India reaping ‘lockdown dividend’ by saving lives and livelihood

PTI ■ NEW DELHI

India is reaping the “lockdown dividend” from the preventive measures it adopted at the onset of the Covid-19 pandemic indicating its willingness to take short-term pain for long-term gain, said the Economic Survey tabled in Parliament on Friday.

The document also said despite the hard-hitting economic shock created by the global pandemic, India is witnessing a V-shaped recovery with a stable macroeconomic situation aided by a stable currency, comfortable current account, burgeoning forex reserves, and encouraging signs in the manufacturing sector output.

“India is reaping the ‘lockdown dividend’ from the brave, preventive measures adopted at the onset of the pandemic...,” it said in the opening chapter titled ‘Saving Lives and Livelihoods Amidst a Once-in-a-Century Crisis’.

Unlike Oscar Wilde’s cynic, ‘who knows the price of everything and the value of nothing,’ India’s policy response to the pandemic stemmed fundamentally from the humane principle advocated eloquently in the Mahabharata that ‘Saving a life that is in jeopardy is the origin of dharma.’

India only country among emerging markets to receive equity FPI inflows in 2020

PTI ■ NEW DELHI

India was the only country among emerging markets to receive equity inflows from FPIs in 2020, as the country attracted USD 30 billion in the first nine months of the year, according to the Economic Survey.

Also, net inflows from foreign portfolio investors (FPIs) recorded an all-time monthly high of USD 9.8 billion in November 2020, as investors’ risk appetite returned.

“During April-December 2020, equities witnessed an inflow of at USD 30 billion, five times its previous year value - India was the only country among emerging markets to receive equity FII

“Therefore, the ‘price’ paid for temporary economic restrictions in the form of temporary GDP decline is dwarfed by the ‘value’ placed on human life,” said the survey.

The document further said India recognised that while GDP growth will recover from

inflows in 2020,” according to the Survey tabled in Parliament on Friday.

As a result of strong inflows, buoyant Sensex and Nifty resulted in India’s market-capitalisation to Gross Domestic Product (GDP) ratio crossing 100 per cent for the first time since October 2010.

“While stock markets value the potential future growth, these elevated levels still raise concerns on the disconnect between the financial markets and real sector,” the Survey noted.However, other emerging markets like Indonesia, Malaysia, South Korea, Taiwan, Philippines, Brazil, Thailand and South Africa witnessed outflows from FPIs last year.

the temporary shock caused by the pandemic, human lives that are lost cannot be brought back.

The response drew on epidemiological and economic research, especially those pertaining to the Spanish Flu, which highlight-

Eco Survey exhorts rating agencies to be more transparent

PTI ■ NEW DELHI

India’s sovereign credit ratings do not reflect the economy’s fundamentals, the Economic Survey said on Friday and nudged the global agencies to become more transparent and less subjective in their ratings. The Economic Survey 2020-21, tabled in Parliament, said that sovereign credit ratings methodology must be amended to reflect economies’ ability and willingness to pay their debt obligations, and suggested that developing economies must come together to address this bias and subjectivity inherent in sovereign credit ratings methodology.

ed that an early, intense lockdown provided a win-win strategy to save lives, and preserve livelihoods via economic recovery in the medium to long-term. “To implement its strategy, India imposed the most stringent lockdown at the very onset of the pandem-

Exports may dip 5.8%, imports by 11.3% in second half of 2020-21

PTI ■ NEW DELHI

The country’s exports are expected to contract by 5.8% and imports by 11.3% during the second half of the current financial year, though implementation of several measures by the Govt would help support exports going forward, according to the Economic Survey 2021. With gradual recovery of economic activities, the survey said that imports and exports have picked up.During the first half of 2020-21 (April-September), exports dipped by 21.31 per cent to USD 125.25 billion while imports declined by 40% to USD 148.69 billion.

ic. This enabled flattening of the pandemic curve and, thereby, provided the necessary time to ramp up the health and testing infrastructure,” it said.

Faced with enormous uncertainty, India adopted a strategy of Bayesian updating to continually calibrate its

Eco survey suggests change in weighage of food items to gauge true picture of inflations

PTI ■ NEW DELHI

The economic survey for 2020-21 has suggested revision in the weightage of food items to gauge the true picture of inflation in the country, and said new sources of price data also need to be incorporated in the wake of increasing retail e-commerce transactions. As per the survey, the current spike in consumer price-based retail inflation of food prices is mainly a supply-side phenomenon.

The survey noted that the weights of all items in retail inflation are based on the NSO household consumption expenditure survey of 2011-12.

response while gradually unlocking and easing economic activity. As per the survey, India has transformed the short-term trade-off between lives and livelihoods into a win-win in the medium to long-term that saves both lives and livelihoods.

8 core industries’ output contracts 1.3 % in Dec 2020

PTI ■ NEW DELHI

The output of eight core infrastructure sectors contracted by 1.3 per cent in December 2020 dragged down by poor show by crude oil, natural gas, refinery products, fertiliser, steel and cement sectors.

The production of eight core sectors had expanded by 3.1 per cent in December 2019, according to the data released by the Commerce and Industry Ministry on Friday.

Barring coal and electricity, all sectors recorded negative growth in December 2020.

During April-December

2020-21, the sectors’ output dropped by 10.1 per cent against a growth rate of 0.6 per cent in the same period of the previous year.

The output of crude oil, natural gas, refinery products, fertiliser, steel and cement declined by 3.6 per cent, 7.2 per cent, 2.8 per cent, 2.9 per cent, 2.7 per cent, and 9.7 per cent, respectively.

Accord ‘strategic sector’ tag to pharma: Par panel

New Delhi:Highlighting the need for strong indigenous pharma companies, a Parliamentary panel has recommended that the pharma industry should be categorised as a “strategic sector” and called for a necessary follow-up action in this regard.

In its report, tabled in Parliament on Friday, on the review of loss-making central public sector enterprises, the Committee on Public Undertakings chaired by Meenakshi Lekhi observed that the indigenous awareness of healthcare facilities is of paramount importance of any nation. The Committee said it was of the strong opinion that pharma sector plays a very important role to keep the nation healthy and strong, and this has been quite apparent during the current pandemic when the need for strong indigenous pharma companies has been realised with more intensity. **PTI**
