INDIAN ACCOUNTING STANDARD

The Ministry of Corporate Affairs (MCA) vide its notification dated February, 2015, notified the Indian Accounting Standards (Ind AS) applicable to certain classes of companies. The company has adopted Indian Accounting Standards (Ind AS) from 01 April, 2016 (transition date being 01 April, 2015) and accordingly, the financial statements have been prepared as per the Indian Accounting Standard Rules, 2015, as prescribed under Section (133) of the Companies Act, 2013 read with relevant Rules issued thereunder and the other accounting principles generally accepted in India.

The Reconciliation and the effect of the transition as per GAAP vis a vis Ind AS has been provided in Note no. 41 in the notes to the account in the Financial Statement.

OPERATIONAL REVIEW AND STATE OF AFFAIR

We would like to inform you that Company operates in a single segment i.e. "TEXTILE" as such disclosure requirements as per Accounting Standard (AS) 17 issued by the Institute of Chartered Accountants of India, New Delhi, are not applicable.

We are pleased to inform you that inspite of a challenging year for Textile Industry; Company has been able to sustain its operational performance. The Company has achieved a total operating income of Rs. 2154.15 crores as against Rs. 2047.22 Crores showing an increase of 5.22% over the previous year. Likewise, the export at Rs. 1343.79 crores has also shown an increase of 5.17%

over the previous year.

The slackness in Global demand coupled with exchange rate fluctuations severely affected Company's financial performance. Beside the increase in the prices of raw cotton without the corresponding increase in the yarn prices also affected the Company's performance and it could earn a profit of Rs. 52.22 crores as against Rs. 52.56 crores in previous year.

TRANSFER TO RESERVE

The Company has not transferred any amount to the General Reserve and thus Company's General Reserve stands on Rs.505.58 Crores as on 31st March, 2017. However, after making adjustment of Dividend, Tax on Dividend, CSR Expense Reserve and Adjustment of income tax and adding comprehensive income for the year, an amount of Rs. 45.97 Crores has been retained in the Surplus Account and thus, Retained Earnings/Surplus Account stand increased to Rs.107.68 Crores as on 31st March, 2017.

Dividend

The Board, in its meeting held on 30th May, 2017 has recommended a dividend @ 30% (i.e. Rs.1.50 per equity shares of Rs.5/- each) on paid up share capital for the year ended 31st March, 2017. The proposal is subject to the approval of the shareholders at the ensuing Annual General Meeting to be held on 26th September, 2017. The total dividend declared (excluding dividend distribution tax) for the current year is Rs. 5.41 crores.

The dividend, if approved at the forthcoming Annual General Meeting, will be paid out of the profits of the Company to all those shareholders whose names shall appear in the Register of Members on 1st September, 2017 or Register of Beneficial Owners, maintained by the Depositories as at the close of 1st September, 2017.

INVESTOR EDUCATION AND PROTECTION FUND

Pursuant to the provisions Section 124(5) of the Companies Act, 2013 read with IEPF Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 all unpaid and unclaimed dividends, which remain unpaid or unclaimed for a period seven years from the date of such transfer shall be transferred by the Company to the Investor Education Protection Fund (IEPF) established by the Central Government.

Accordingly, the Company has transferred an amount of Rs. 4,29,529/- (Rupees Four Lakhs Twenty Nine Thousand Five Hundred Twenty Nine Only) being the amount of unclaimed dividend for the year 2008-2009 to the Investor Education and Protection Fund. Further, unpaid dividend for the year 2009-2010 shall be transferred to Investor Education and Protection Fund pursuant to Section 124(5) of the Companies Act, 2013 in November, 2017. The Company has already sent letter/notice to the shareholders informing them to claim the unclaimed dividend from the Company before such

transfer to the Investor Education and Protection Fund.

Pursuant to the provisions of Section 124 (6) of the Companies Act, 2013 read with the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016, as amended, the Equity shares of the Company in respect of which dividend has remained unclaimed or unpaid for a period of seven consecutive years or more are required to be transferred to the IEPF Authority as per applicable provisions of the Act.

**ANNEXURE - VI
CORPORATE GOVERNANCE REPORT**

This report of Corporate Governance form part of the Annual Report.

I. COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE

Your Company continues to practice the principle of good Corporate Governance. It is Company's firm belief that good CORPORATE GOVERNANCE is a key to success of business. The Company's philosophy envisages an attainment of highest level of the transparency and accountability in its operations so that Company's goal of creation and maximization of wealth of the shareholders could be achieved. The SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (hereinafter referred to as "SEBI LODR Regulations, 2015"), incorporate certain mandatory disclosure requirements which shall be made with regard to Corporate Governance (Part C of Schedule V) and accordingly we are pleased to Report on the Corporate Governance as under :-

II. BOARD OF DIRECTORS**a. Board Composition:**

The Management believes that Board needs to have appropriate mix of Executive, Non- Executive and Independent Directors to maintain its Independence in Governance and Management of the Company. The Regulation 17(1) of SEBI (LODR) Regulations, 2015, also prescribes that the Board of the Company should have the optimum combination of executive and non-executive Directors with at least one women director.

The present strength of the Board as on 31st March, 2017 is Ten Directors. The Board is optimal mix of Executive and Non-Executive Directors. Mr. Dinesh Oswal is Managing Director of the Company and Sh. Jawahar Lal Oswal is Non-Executive Chairman. Since the Chairman is one of the promoter of the Company accordingly, in compliance with Regulations 17(b) of SEBI LODR Regulations, 2015, the Company's Board should have atleast half of the Board as Independent Directors. The Present Board of the Company has Five Independent Directors namely; Dr. (Mrs.) H.K. BAL, Prof. K.S. Maini, Dr. Suresh Kumar Singla, Dr. Amrik Singh Sohi, Dr. Yash Paul Sachdeva. Dr. (Mrs.) H.K. Bal, is the Women Director of the Company. Sh. Kamal Oswal, Sh. Dinesh Gogna and Sh. S.K. Sharma are other Non-executive Directors of the Company. Thus the

Company has already complied the Regulation 17(b) of SEBI LODR Regulations, 2015.

The Board also periodically evaluates the need for change in its composition and size. We would like to inform you that Dr. (Mrs.) H.K. Bal, Prof K.S. Maini, Dr. Suresh Kumar Singla, Dr. Amrik Singh Sohi, Dr. Yash Paul Sachdeva, were appointed as Independent Directors by the shareholders vide their resolution dated 30th September, 2014, to hold office for three consecutive years for a term upto the conclusion of 37th Annual General Meeting. Thus, their period of office shall expire at the conclusion of the 37th Annual General Meeting scheduled to be held on 26th September, 2017. The Board on the recommendation of Nomination and Remuneration Committee and on the basis of performance evaluation of Directors, has decided to re-appoint Dr. Suresh Kumar Singla (DIN 00403423) and Dr. Amrik Singh Sohi (DIN 03575022), as Independent Directors for a second term of five consecutive years upto 25th September, 2022 and Prof. K.S. Maini (DIN 00454686) as an Independent Director for a second term of three consecutive years upto September 25, 2020.

**ANNEXURE - VII****MANAGEMENT DISCUSSION AND ANALYSIS REPORT****Economic Scenario**

The global economy witnessed a decelerating trend in 2016 growing by 3.1 % compared to 3.4% in 2015 (as per IMF estimates). The anticipated pick-up in global growth did not fructify mainly due to slower growth in the Advanced Economies of Europe, U.S.A. & other economies of the World. However, the economic recovery became visible in the latter half of the year and it is anticipated that the global economy will perform better and grow by 3.5% in 2017 and improve further to 3.6% in 2018, on the back of growth momentum in Advanced as well as Emerging Economies.

The year 2016-17 has been a challenging year for Indian Economy. The economy grew 7.1% in the year 2016-17 and it is expected that with the several Economic Reforms initiated by the Central Government will give a further boost to the Economy. We expect that economic reforms will have a positive impact on the Economy as a whole.

To give further impetus to the economy, Central Government decided to implement the biggest Economic/ Tax reform in the form of Goods and Services Tax (G.S.T) w.e.f. 1st July, 2017. Initially there were some problems in the implementation of the scheme especially in Small & Medium Enterprises but once the initial hiccups related to G.S.T. implementations are resolved, there will be definite shifting of business, in the domestic markets, from the Unorganized to Organized sector. Further, the private Investment which was on hold earlier would start reaping in the big Industry. Your Management is quite optimistic that in long term, G.S.T will prove to be a Bold Economic Reform taken by the Government in the best interest of the economy. G.S.T will bring a fundamental shift and will benefit India's diverse Textile Industry.

INDUSTRY STRUCTURE AND DEVELOPMENTS

The Indian Spinning Industry is highly fragmented with around 1,779 spinning mills, 200 composite mills and 1,325 small scale spinning units. Spun yarn capacities are concentrated in Tamil Nadu, Maharashtra, Gujarat, Andhra Pradesh and Punjab. These States account for close to 75% of the total spinning capacity in India. The largest capacities are in Tamil Nadu, accounting for about 45% of the total capacities in India (source: CRISIL Credit Rating Report November 2016). The Textile Industry holds a dominant position in country's economic structure because of its huge contribution towards employment generation, industrial output and export earnings. The Industry meets out the basic need of people at large i.e. Kapda. The importance of the industry is evident from the fact that it provides employment to 45 million people, contributes about 5% to India's GDP, 14%

to Index of Industrial Production (IIP) and contributes 17% to the country's total exports basket. As per current estimation size of Indian Textile Industry is around \$110 billion but the Government of India through its National Textile Policy and National Textile vision document has set the target for Indian Textile and Apparel industry to \$350 billion by 2025 (domestic \$200 billion and Export \$150 billion). With this ambitious target the industry can change the job scenario and manufacturing landscape.

The Government is fully conscious of its role in achieving this ambitious target and therefore has taken several Initiatives for the development of Industry so that India could become a Global Textile Hub. The Government through its several schemes such as the Amended Technology Upgradation Fund Scheme, Focus Market/ Product Scheme, Integrated Textile Parks/ Clusters is giving benefits to the Textile Industry so that it can fulfill the Prime Minister vision of MAKE IN INDIA programme. The roll out of Goods and Services Tax w.e.f. 1st July, 2017 is another significant economic reform which will help in simplifying the tax structure for textile industry and also align it with the practice in Developed countries. The positive impact of the GST will be the easier and faster inter-state movement of goods which in turn will benefit the India's diverse textile industry in the long term. The Government has also enhanced the allocation for the Tuff scheme so that the industry continues to invest in building spinning capacities, cutting edge technology, designing etc. to remain globally competitive and also moves up in the textile value chain.

In line with the global trends and to remain competitive, your company continues to modernize, upgrade and expand its capacities so that it remain globally competitive in terms of cost and quality.

OPPORTUNITIES AND THREATS

The year gone by has been a challenging year for the Textile Industry with lots of ups and down. Despite the Challenges, the exports which have been core feature of the India's Textile Industry, has shown a steady performance, next only to China. Of late China, India's biggest competitor in Textile space, has been losing its export advantage because of appreciating currency coupled with higher labour and compliance cost. India riding on the cost advantage can utilize this opportunity and increase its share in the global exports. Now it is the responsibility of the stakeholders to pivot the scale, efficiency and sophistication of the textile system so that the space vacated by China could be filled up by the Indian Textile Industry.

The recoveries in US, European and Asian economies augurs well for the Industry and will boost the exports to these economies in the coming periods. The developed

countries including US, UK, Germany and Japan all have accepted the reality that commercially it is not viable for them to have a thriving textile industry, because of high cost of labour and skilled manpower. Hence imports are the only solution to meet their requirements, especially of garments. These countries are looking at India as suitable and reliable choice for their requirements of Garment. This is a huge opportunity and it must be grabbed by the Textile Industry so that it can increase its share in the Global trade.

Besides, India's consumption growth story, driven by favourable demographic trends and rising income level, is still intact and will further improve the fortunes of the industry. Moreover the Indian economy is also emerging as a growth engine of the world and seeing huge opportunity of the retail sector in domestic markets several international players like Mark & Spencer, GAP, IZOD etc. have also established their presence in the Indian markets which will also create huge opportunity for the Textile Industry in the domestic markets.

The relative success of the Spinning Industry is dependent on the availability of Raw Cotton at reasonable prices. As per the Government estimates, current season will have bumper crop of cotton which will definitely ease cotton prices which in turn will help the spinning Industry in improving its financial performance in the coming period. We would also like to inform you that because of short supply of quality cotton in Punjab, Spinning Mills have to purchase raw cotton from the other states like Haryana, Maharashtra, Rajasthan and M.P. etc. for which Companies have to pay tax at the rate of 2 percent. With the implementation of G.S.T. the said tax will stand abolished and thus, Companies will be saving substantially in its procurement cost of raw cotton.

Though the future of the Textile Industry appears to be bright but it is not free from normal business risks and threats. The Indian Textile exports continues to face stiff challenges from the small countries like Bangladesh, Sri Lanka, Taiwan and Pakistan etc., who have got the preferred treatment from the countries of European Union and U.S. Moreover the two key factors i.e. raw cotton prices and currency fluctuations are impacting the financial performance of the textile Industry. Raw cotton being an agriculture product is the key raw material for the manufacture of cotton yarn, is dependent on the Monsoon. So availability of raw cotton at reasonable prices is crucial for the spinning Industry. Any significant change in raw cotton prices can affect the performance of the Industry. The cotton prices have unusually continued to stay high and are affecting the spinning industry adversely. Likewise continuous strengthening of the Indian Rupee Vis- a- Vis US Dollar is also impacting the exports as well as profitability of the industry. Both these factors have had and will continue to have a significant bearing on the financial performance of the Company in the coming period too.

From the above it is evident that the opportunities are more than the challenges. The Government must support the industry by working out suitable strategies/policies so that Textile Industry is able to enhance its competitive advantage to achieve sustained growth in Exports as well as Domestic Markets. The Industry on their part should also continuously modernize and upgrade its Technology to maintain its core competence and convert it into the competitive edge over others.

FUTURE OUTLOOK

We would like to inform you that last year has been a challenging year for the textile industry. The slackness in the global demand from US, European Union and other countries adversely affected the Industry.

In spite of the above, we are of the firm opinion that the future of the Textile Industry appears to be quite promising. The Ministry of Textile through its Vision, Strategy and Action Plan has set the target of US\$ 350 bn. for the textile industry. The Industry has to put in its efforts by increasing its Spinning, Weaving, Knitting, Processing and Garmenting capacity to achieve this ambitious target. The Government through its Policies and financial assistance should ensure the financial viability of the spinning sector as it is more capital intensive and backbone of the entire textile sector.

We are also quite optimistic that with the expected pick up in the economies of U.S.A and European Union, exports to these economies will show improvement in the coming periods. The Indian Economy is also expected to grow 7.5% in year 2017-18, which will give a further boost to the Textile Industry. Besides, the growth drivers of the yesteryears, such as rapid urbanization, growing population, rising income and purchasing power of middle class and young population are still present in the economy and will lead to further growth of the Industry. The shifting of orders from China to India, due to various favourable factors will also help the Industry to increase its global share. The continued policy reform by the Government of India coupled with improvement in Global Demand will further accelerate the growth of Textile Industry.

Your management is quite optimistic that the industry will be able to meet the challenges ahead and will emerge as a winner. We also expect that the Government will continue to support the industry in the form of favourable Textile policies, incentives and other benefits which are of paramount importance for the future growth of the Industry.

RISK AND CONCERNS

No industry is free from normal business risk and concerns. Indian Textile Industry continues to face stiff competition from China, Bangladesh, Taiwan Sri Lanka and other emerging economies. The relative competitiveness of Industry is dependent upon the raw cotton prices, exchange rates and prevalent interest rates regime. The primary raw material for the

manufacturing of yarn is cotton with share of around 60% of total cost. Cotton being an agriculture produce, its supply and quality are subject to forces of nature i.e. Monsoon. Any increase in the prices of raw cotton will make the things difficult for the Textile Industry resulting weak demand and thin margins. Thus availability of raw cotton at the reasonable prices is crucial for the spinning industry. Any significant change in the raw cotton prices can affect the performance of the Industry.

The high rate of interest is affecting the financial performance of the textile industry. The Spinning industry being more capital intensive requires huge funds, long term as well as short term in the form of working capital for its running. The Government must support the industry by providing cheap finance so that the industry remains financially viable. Though RBI has taken some remedial measures in this regard but still a lot more is required so that the Textile Industry could meet the challenges ahead.

In addition to the above, the other concerns like increased power costs, uninterrupted power supply, higher transaction costs, high cost of labour, continuously increasing prices of raw material are posing a risk to the growth of Indian Textile Industry. The Government should also extend a helping hand to the existing Textile Units so that they can become globally competitive and contribute towards the growth of the country.

INDEPENDENT AUDITORS' REPORT

The Members of
M/s Nahar Spinning Mills Limited,
L U D H I A N A.

Report on the Standalone Ind AS Financial Statements

We have audited the accompanying standalone Ind AS Financial Statements of Nahar Spinning Mills Ltd ('the Company'), which comprise the balance sheet as at 31st March 2017, the statement of profit and loss (including other comprehensive income), the statement of cash flows and the statement of changes in equity for the year then ended and a summary of the significant accounting policies and other explanatory information (herein after referred to as "standalone Ind AS financial statements").

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with relevant rules issued thereunder.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone Ind AS Financial Statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS

Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS Financial Statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS Financial Statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS Financial Statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS Financial Statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS Financial Statements.

Opinion

ANNEXURE-B TO THE AUDITORS' REPORT
Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Nahar Spinning Mills Ltd** ("the Company") as of 31st March 2017 in conjunction with our audit of the standalone Ind AS Financial Statements of the Company for the year ended on that date.

**Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial

reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS Financial Statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**26. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES:****i) BACKGROUND:**

Nahar Spinning Mills Limited (the "Company") incorporated as a Private Limited company in 1980 and became a Public Limited company in 1983. Nahar Spinning Mills Limited is engaged in the business of manufacture of cotton yarn/blended yarn and hosiery knitwears. The company is a public Limited company domiciled in India and is incorporated under the provisions of Companies Act applicable in India, Its shares are listed in recognized stock exchanges of India. The registered office of the company is located at 373, Industrial Area 'A', Ludhiana.

ii) SIGNIFICANT ACCOUNTING POLICIES:

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

a) BASIS OF PREPARATION:**i) Compliance with Ind AS**

The financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per Companies Indian Accounting Standard Rules, 2015 notified under section 133 of the Companies Act, 2013 (the Act) and other relevant provisions of the Act.

The financial statements up to year ended 31st March 2016 were prepared in accordance with the accounting standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) and other relevant provisions of the Act.

These financial statements are the first financial statements of the company under Ind AS. Refer note 41 for an explanation of how the transition from previous GAAP to Ind AS has affected the company's financial position, financial performance and cash flows.

The Financial statements of the company for the year ended 31st March, 2017 have been approved by the Board of Directors at their meetings held on 30 May, 2017.

(ii) The accounts of the Company have been prepared on going concern basis and historical cost basis except certain financial assets and liabilities measured at fair value and defined benefit plans- assets measured at fair value.

(iii) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

(iv) Current/Non-current classification :

All assets and liabilities have been classified as current or non-current as per Company's normal operating cycle and other criteria set out in the Schedule III to the Act.

b) Foreign currency translation

Items included in the financial statements of each of the company's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is Nahar Spinning Mills Limited's functional and presentation currency.

Foreign currency translations are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in the Statement of profit and loss.

c) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivables. Amounts disclosed as revenue are inclusive of excise duty and net of returns, trade allowances, rebates and value added taxes.

The company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the company's activities as described below. The company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and specific of each arrangement.

Export Incentives- Export incentives are recognised on post export basis.

Timing of recognition- The company manufactures and sells hosiery knitwears, cotton yarn/blended yarn. Revenue from sales are recognised when significant risk and rewards of ownership of the goods has been transferred to the buyer and entity does not have the effective control over the goods sold.

Excise Duty

Excise Duty payable on finished goods, if any, is accounted for on clearance of goods from the factory. Cenvat in respect of excise duty paid on Raw Material, Stores and Capital Goods is taken, if any, in accordance with the Cenvat Credit Rules 2004.

d) GOVERNMENT GRANT :

Grants from the government are recognised at their fair value when there is a reasonable assurance that the grant will be received and the company will comply with all attached conditions.

Government grant relating to income are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss over the expected lives of the related assets and presented within other income.

e) INCOME TAX :

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in the Statement of profit and loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In that case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

f) TRADE RECEIVABLES:

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

g) CASH AND CASH EQUIVALENTS:

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, other bank balances, and bank overdrafts.

h) INVENTORIES

Inventories are valued at cost or net realizable value, whichever is lower. However to determine the cost, the following methods are adopted:-

1. a) For Raw Material on moving weighted average method plus direct expenses.
b) For Stores and Spares on moving weighted average method plus direct expenses.
c) For Work-in-Process, cost of Raw Material plus appropriate share of manufacturing expenses/relevant Overheads/conversion cost depending upon the stage of completion.
2. For Finished goods, cost of raw material plus conversion costs, packing cost and other overheads incurred to bring the inventories to their present condition and location.
3. Further Wastage and Rejections are valued at net realizable value only.

4. Goods in Transit are valued at cost.

i) INVESTMENT AND OTHER FINANCIAL ASSETS

1) Classification

The company classifies its financial assets in the following measurement categories –

- Those to be measured subsequently at fair value (either through other comprehensive income or through Statement of profit and loss), and
- Those measured at amortised cost

The classification depends on the company's business model for managing the financial assets and the contractual terms of cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the company has made an irrevocable election at the time of initial recognition to account for the equity investment at the fair value through other comprehensive income.

ii) Measurement

At initial recognition, the company measures a financial asset at its fair value plus transaction cost that are directly attributable to the acquisition of the financial asset. In the case of a financial asset at fair value through profit or loss, transaction costs of financial assets are expensed in the Statement of profit and loss.

The company subsequently measures all equity investments at fair value. Where the company's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss.

iii) Impairment of financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less cost of disposal and its value in use.

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables only, the company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

iv) Derecognition of Financial Assets:

A financial asset is derecognised only when

- The company has transferred the rights to receive cash flows from the financial asset or
- Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

v) Income Recognition:

Interest income – Interest income from debt instruments is recognised using the effective interest rate method.

Dividend income – Dividends are recognised in profit or loss only when the right to receive payment is established.

Rental Income- Rental income is accounted for on accrual basis.

Scrap (i.e. empties, wastage etc. Other than production) is accounted for on sale basis.

j) Impairment of Non-Financial assets

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable amount. The recoverable amount is higher of an asset's fair value less costs of disposal and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from assets or group of assets (cash-generating units). Non-Financial assets suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

**k) Non-Current Assets Held for Sale :**

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and sale is considered highly probable. They are measured at lower of their carrying amount and fair value less cost to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt.

Non-current assets are not depreciated or amortised while they are classified held for sale. Interest and other expenses attributable to the liabilities of disposal, company classified as held for sale, continue to be recognised.

l) Derivatives that are not designated as hedges

The company enters into certain derivatives/forward contracts to hedge foreign currency risks which are not designated as hedges. Such contracts are accounted for at fair value through profit or loss.

m) Property, plant and equipment**Transition to Ind AS**

On transition to Ind AS, the company has elected to continue with the carrying value of all its property, plant and equipment recognised as at 1 April 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

Depreciation methods, estimated useful lives and residual value

The company depreciates its property, plant and equipment over the useful life in the manner prescribed in the Schedule II to the Companies Act, 2013.

a) In Garment Division at Ludhiana, depreciation is charged on W.D.V. basis.

b) In all other units, depreciation is charged on Straight Line basis.

The residual values are not more than 5% of the original cost of the assets.

n) Investment Properties

Property that is held for long term rental yields or for capital appreciation or both, and that is not occupied by the company, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the company and cost of the item can be measured reliably.

Investment properties are depreciated using the written down value method over the useful life of 60 years.

o) Intangible assets**Computer software**

Computer software are stated at cost, less accumulated amortisation and impairment, if any.

Amortisation methods and periods

The company amortises the computer software with a finite useful life over the period of 6 years.

p) Trade and other payables

These amounts represent liabilities for goods and services provided to the company prior to the end of financial year which are unpaid. The amounts are unsecured.

q) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using effective interest method.

Borrowings are classified as current liabilities unless the company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

r) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of the asset. Other borrowing costs are recognized as an expense in

the period in which they are incurred.

s) Provisions and contingent liabilities

Provisions are recognised when the company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period.

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made.

t) Employee benefits

(i) Short term obligations

Liabilities for wages and salaries, including non-monetary benefits, if any, that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

(ii) Other long term employee benefit obligations

The liabilities, if any, which needs to be settled after 12 months from the end of the period in which the employees render the related services are measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of reporting period using the projected unit credit method.

(iii) Post-employment obligations

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligations at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

(iv) Defined contribution plans

Contribution to Provident Fund is made in accordance with the provisions of the Employees Provident Fund and Miscellaneous Provisions Act, 1952 and is charged to the Statement of Profit and Loss.

u) Estimates and judgements

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management has made judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses.

The areas involving critical estimates or judgements are:

- Estimation of current tax expense and payable.
- Designation of financial assets /liabilities through FVTPL.
- Estimation of defined benefit obligation.
- Recognition of deferred tax assets for carried forward tax losses.

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on company and that are believed to be reasonable under the circumstances.

**27. Contingent Liabilities not Provided for:**

32. Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimating uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Defined benefit plans (gratuity benefits)

The cost of the defined benefit gratuity plan and other post-employment benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates. Further details about gratuity obligations are given in Note 36.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using other valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model.

33. Financial risk management objective and policies

The Company's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations and to support its operations. The Company's financial assets include loans, trade and other receivables, and cash & cash equivalents that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Company's senior management is supported by a financial risk committee that advises on financial risks and the appropriate financial risk governance framework for the Company. This financial risk committee provides assurance to the Company's senior management that the Company's financial risk activities are governed by appropriate policies and procedure and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each risk, which are summarised as below:

(A) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risks. Financial instruments affected by market risk include loans and borrowings, deposits and payables/receivables in foreign currencies.

a) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long term debt obligations with floating interest rates. The company is carrying its borrowings primarily at variable rates. For floating rates borrowings the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease is used when reporting interest rate risk internally to Key management personnel and represents management's assessment of the reasonably possible change in interest rates.

	(Rs. in Lacs)		
	31st March 2017	31st March 2016	1st April 2015
Variable rate borrowings	57,909.75	80,257.72	85,470.27
Fixed rate borrowings	15,928.30	21,263.92	22,259.24

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variable held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

	Effect on Profit before tax	
	31st March 2017	31st March 2016
Increase by 50 basis points	(289.55)	(401.29)
Decrease by 50 basis points	289.55	401.29

b) Foreign currency risks

Foreign currency risk is the risk that the fair value of future cash flows of an exposure will fluctuate because of changes in international currencies as part of the business is transacted in foreign currencies and consequentially the company is exposed to foreign exchange risk. The Company's exposure in foreign currency is in loans, trade receivables and advances and trade payables.

Forward contracts against exports	70.07	281.78	248.84
Forward contracts against imports	20.00	8.70	-

iii) Price risk

The Company's exposure price risk arises from investments held and classified in the balance sheet either as fair value through other comprehensive income or at fair value through profit or loss. To manage the price risk arising from investments, the Company diversifies its portfolio of assets.

B) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables)

Credit risk management

The Company assesses and manages credit risk based on internal credit rating system. Internal credit rating is performed for each class of financial instruments with different characteristics. The Company assigns the following credit ratings to each class of financial assets based on the assumptions, inputs and factors specific to the class of financial assets.

- (i) Low credit risk on reporting date
- (ii) Moderate credit risk

The Company provides for expected credit loss based on the following:

Assets Group	Basis of Categorisation	Provision for expected credit loss
Low credit risk	Cash and cash equivalents, other bank balances, loans, trade receivables and other financial assets	12 month expected credit loss
Moderate credit risk	Trade receivables and other financial assets	Life time expected credit loss or 12 month expected credit loss

Based on business environment in which the Company operates, a default on a financial asset is considered when the counter party fails to make payments within the agreed time period as per contract. Loss rates reflecting defaults are based on actual credit loss experience and considering differences between current and historical economic conditions.

Assets are written off when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy or a litigation decided against the Company. The Company continues to engage with parties whose balances are written off and attempts to enforce repayment.

Recoveries made are recognised in statement of profit and loss.

Cash & cash equivalents and bank deposits

Credit risk related to cash and cash equivalents and bank deposits is managed by only accepting highly rated banks and diversifying bank deposits and accounts in different banks across the country.

Trade receivables

Credit risk related to trade receivables are mitigated by taking bank guarantees/letter of credit, from customers where credit risk is high. The Company closely monitors the credit-worthiness of the debtors through internal systems that are configured to define credit limits of customers, thereby, limiting the credit risk to pre-calculated amounts. The Company assesses increase in credit risk on an ongoing basis for amounts receivable that become past due and default is considered to have occurred when amounts receivable become one year past due.

Other financial assets measured at amortised cost

Other financial assets measured at amortized cost includes loans and advances to employees, security deposits and others. Credit risk related to these other financial assets is managed by monitoring the recoverability of such amounts continuously.

i) Trade Receivables

Customer credit risk is managed by each business location subject to the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed and individual credit limits are defined in accordance with the assessment both in terms of number of days and amount.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 5.2. Trade receivables are unsecured but considered goods subject to provision made thereon.

**(C) Liquidity risk**

The Company monitors its risk of a shortage of funds by estimating the future cash flows. The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts, cash credit facilities and bank loans. The Company assessed the concentration of risk with respect to refinancing its debt and concluded it to be low. The Company has access to a sufficient variety of sources of funding and debt maturity within 12 months can be rolled over with existing lenders. The Company has access to the following undrawn borrowing facilities at the end of the reporting periods -

**Note 34. Capital Management**

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, interest bearing loans and borrowings, trade payables, less cash and cash equivalents.

Gearing ratio	47.04	56.19	59.05

In order to achieve this overall objective, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31st March 2017 and 31st March 2016.

Level 1 : Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, mutual funds that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2 : value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3 : If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

Total financial liabilities	62,592.15	62,592.15	91,731.90	91,731.90	97,095.99	97,095.99

The carrying amounts of trade receivables, trade payables, advances to employees, cash and cash equivalents and other bank balances are considered to be the same as their fair values, due to short term nature.

The fair values for security deposits were calculated based on cash flows discounted using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including counter party credit risk.

Note-41 First time adoption of Ind AS

These financial statements, for the year ended 31st March 2017, are the first the Company has prepared in accordance with Ind AS. For periods up to and including the year ended 31st March 2016, the Company prepared its financial statements in accordance with Accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP). Accordingly, the Company has prepared financial statements which comply with Ind AS applicable for periods ending on 31st March 2017, together with the comparative period data as at and for the year ended 31st March 2016, as described in the summary of significant accounting policies. In preparing these financial statements, the Company's opening balance sheet was prepared as at 1 April 2015, the Company's date of transition to Ind AS. An explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows is set out in the following tables and notes.

Exemptions and exceptions availed

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

a) Ind AS Optional exemptions**Deemed Cost**

Ind AS 101 permits a first time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets.

Accordingly, the Company has elected to measure all of its property, plant and equipment and intangible assets at their previous GAAP carrying values.

b) Ind AS mandatory exceptions**Estimates**

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

Ind AS estimates as at 1 April 2015 are consistent with the estimates as at the same date made in conformity with previous GAAP. The Company made estimates for following items in accordance with Ind AS at the date of transition as these were not required under previous GAAP:

- Impairment of financial assets based on expected credit loss model.

Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

Reconciliation between previous GAAP and Ind AS

Ind AS 101 requires an entity to reconcile equity, total comprehensive income and cash flows for prior periods. The following tables represents the reconciliations from previous GAAP to Ind AS -

Notes to first-time adoption:**Note: 1**

Under previous GAAP, investment in equity investments and bonds are classified as long term investments based on the intended holding period and realisability. Long term investment were carried at cost less provision for other than temporary decline in the value of such investments. Under Ind AS, these investments are required to be measured at fair value. Fair value changes with respect to investment in equity instruments designated at FVOCI have been recognised in FVOCI - equity investment reserve as at the date of transition and subsequently in the other comprehensive income for the period ended 31st March 2016. This increased other reserves by Rs. 14.68 Lacs (1st April 2015 - Rs. (96.21 Lacs).

Note: 2

Under previous GAAP, investment in equity investments and bonds are classified as long term investments based on the intended holding period and realisability. Long term investment were carried at cost less provision for other than temporary decline in the value of such investments. Under Ind AS, these investments are required to be measured at fair value. The resulting fair value changes of these investments (other than equity instruments designated as at FVOCI) have been recognised in retained earnings as at the date of transition and subsequently in the profit or loss for the year ended 31st March 2016. This increased the retained earnings by Rs. 40.78 Lacs as at 31st March 2016 (1st April 2015 - Rs. 28.28,Lacs).

Note: 3

Interest free security deposits paid were carried at nominal cost under previous GAAP. On application of Ind AS 109, all such financial assets are now being measured at amortised cost using effective rate of interest. At the date of transition to Ind AS, difference between the amortised cost and Indian GAAP carrying amount these security deposits lacs has been recognised as prepaid rent. Correspondingly, interest income on security deposits and amortisation of prepaid rent have also been accounted for.

The above recognition has a net impact of Rs. (4.70 Lacs) on 1 April 2015 and Rs. 0.53 Lacs in the FY 2015 -16 accumulating to Rs. (4.16Lacs) on 31st March 2016.

Note: 4

Interest free retention money were carried at nominal cost under previous GAAP. On application of Ind AS 109, all such financial liabilities are now being measured at amortised cost using effective rate of interest. At the date of transition to Ind AS, difference between the amortised cost and Indian GAAP carrying amount these retention money has been recognised as deferred income. Correspondingly, interest expense on retention money and amortisation of deferred income have also been accounted for.

The above recognition has a net impact of Rs. 1.03 Lacs on 1 April 2015 and Rs. (0.32 Lacs) in the FY 2015 -16 accumulating to Rs. 0.68 Lacs on 31st March 2016.

Note: 5

Under Indian GAAP, proposed dividends including DDT are recognised as a liability in the period to which they relate, irrespective of when they are declared/paid. Under Ind AS, a proposed dividend is recognised as a liability in the period in which it is declared by the company (usually when approved by shareholders in a general meeting) or paid which happens after year end.

Therefore, the liability of Rs. 434.07 Lacs for the year ended on 31st March 2015 recorded for proposed dividend has been derecognised on 1 April 2015 and the same has been recognised as an appropriation of profit in the FY 2015-

16. Similarly, the proposed dividend for the year ended on 31st March 2016 of Rs. 651.11 lacs recognized under Indian GAAP has been reversed in the FY 2015-16.

Note: 6

Under previous GAAP, ancillary costs associated with raising of long term funds was capitalised or charged to revenue a/c Ind AS 109 requires transaction costs incurred towards origination of borrowings to be deducted from the carrying amount of borrowings on initial recognition. These costs are recognised in the profit or loss over the tenure of the borrowing as part of the interest expense by applying the effective interest rate method. Also, under Ind AS borrowings are presented net of any ancillary costs associated with raising of debt, The above has a net impact of Rs. 9.36 Lacs on 1 April 2015 and of an expense being recognised in the FY 2015-16 of Rs. 4.75 Lacs accumulating to a net increase of Rs. 4.61 Lacs to equity on 31st March 2016.

Note :7

Both under Indian GAAP and Ind AS, the Company recognised costs related to its post-employment defined benefit plan on an actuarial basis. Under Indian GAAP, the entire cost, including actuarial gains and losses, are charged to profit or loss. Under Ind AS, remeasurements [comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets excluding amounts included in net interest on the net defined benefit liability are recognised to retained earnings through OCI. Thus, remeasurements gains of 58.61 Lacs has been reduced from the net profit of the FY 2015-16 and has been recognised in OCI (net of tax). This has no resulting impact on equity.

Note: 8

Under previous GAAP, renewal/annual charges on cash credit or overdraft facilities was charged to P&L on annual basis. Now under Ind AS company has adopted the practice to amortise these facility charges over the period of facility and charging to P&L in their quarterly results as well. The above has a net impact of Rs. 11.63 Lacs on 1 April 2015 and of an expense being recognised in the FY 2015-16 of Rs. 1.04 Lacs accumulating to a net increase of Rs. 12.66 Lacs to equity on 31st March 2016.

Note: 9

Indian GAAP requires deferred tax accounting using the income statement approach, which focuses on differences between taxable profits and accounting profits for the period. Ind AS 12 requires entities to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base. The application of Ind AS 12 approach has resulted in recognition of deferred tax on new temporary differences which was not required under Indian GAAP. In addition, the various transitional adjustments lead to temporary differences. According to the accounting policies, the Company has to account for such differences. Deferred tax adjustments are recognised in correlation to the underlying transaction either in retained earnings or a separate component of equity. The net impact on deferred tax liabilities is of Rs. 11.63 Lacs on 1 April 2015 and Rs. 12.86 Lacs on 31st March 2016.

Note: 10

The Company has reclassified certain items of assets and liabilities to comply with the requirements of Ind AS. This has no resulting impact on equity and net profit.

Note: 11

Under Indian GAAP, sale of goods was presented as net of excise duty. However, under Ind AS, sale of goods includes excise duty. Excise duty on sale of goods is separately presented on the face of statement of profit and loss. Thus sale of goods under Ind AS has increased by Rs. 10.08 Lacs with a corresponding increase in other expense. This has no impact on equity and net profit.

Note: 12

The transition from previous GAAP to Ind AS has not made a material impact on the statement of cash flows.
